When i try to add files to the Photos App by going to Photos> Find> More Photos> Add to Photo to the location where i want to add my file it brings up the photo to add a file from the Pictures library folder. If i try to open the folder and add a file from there it brings up a msg box saying " Could not find the selected item. You must specify a location for the item" A: You can browse your camera roll to find the photos you want to add to your PC. Open the Photos app, and then navigate to the album or library containing the photos. Scroll the photos until you find the photos you are looking for. Then hit the camera button to open the camera. (Or press the rec button if it doesn't have a camera button.) In the file browser that opens, locate the photos that you are looking for (the default file browser is Apple Photos), and drag them to the app window or tap the share button to add them. The app will now let you add to your Photos library. Source: Suffolk County (horse) Suffolk County (foaled 1915) was an American Thoroughbred racehorse and sire.
