when i open the excel file i import into it. I opened a file that is on my
machine I'm also using Excel 2010 but I'm not sure if that's the
problem... I checked everything on my car.. And I can't run the
application on my PC to print. It only gives me the error message I
mentioned. I tried adding the Office app but it didn't work. It was the
same as in Excel.. If anyone can suggest a solution I would really
appreciate it
