I beat the normal mode on play mode and now I'm playing the hardest mode on nightmare difficulty. I'll play for at least a week on this to see how much I like it. Good job on it. I play it at night when no one else is around. :) This game has perfect classic game mechanics, with HD visuals and sound. I wish they had the laser gun, maybe they could do the hallway by knocking the lock with a laser. I play this a lot. A cool little free game. The mechanics are good, challenging, and fun. The art is beautiful and well done. The music is totally awesome. I keep going back and trying to beat my high score. This is really cool. The game has an atmosphere and the sense of urgency and challenge is there. The levels can be very scary for a first-time player. Theres really nothing I dont like about this game. I would say its more challenging than I had expected and I really enjoy the sense of urgency that it puts into play and I can see myself playing it often. OK, this is a good platformer game. It has an atmosphere and a sense of urgency. The design is well done and it is challenging. The controls are good and the controls work. Aeon's End is a 1917 American Western film produced and distributed by Goldwyn Pictures and starring Gary Cooper. The film featured Lon Chaney in his first appearance in a feature film and the introduction of his character, The Monster. While Chaney's film appearances were primarily a mute character, Aeon's End features him utilizing his trademark makeup, which was used to convey both speech and emotion. The film also marks one of the first depictions of the Western shootout situation and one of the earliest double exposures in cinema. Despite the pioneering nature of the film, it failed at the box office, losing \$100,000, resulting in the shelving of Aeon's End. It is a lost film. Plot After the death of the U.S. President, his killer, John Dunaway, is pursued by a team of Western bounty hunters, eventually culminating in his capture at a train depot in Dodge City, Kansas. In the ensuing trial, Dunaway is sentenced to hang. The attorney for Dunaway's defense explains that while Dunaway had killed the President, he had not intended to kill him. He had simply wanted to kidnap the President and hold him for ransom. The attorney presents to the jury video footage of Dunaway's capture at the train depot. While in prison, Dunaway meets Tom Cane, who was a friend of the President. Cane helps Dunaway to escape, and the two men decide to take advantage of the law of the West, which does not enforce the death penalty for a man who has already been sentenced. Dunaway and Cane are aided by Diamond Henning, whose real name is Dunaway, and the two men are aided by Brick Muller, a former Boer War soldier in South Africa who helps the duo escape after the Gunfight at the O.K. Corral, where Dunaway had killed Colonel Obadiah Dax, the President's father. Henning and Muller tell Dunaway he is not really John Dunaway, but a gentlemanly actor named Alex Randall, who the talent agent Charlie Mulvey rescued from the theater fire in New York City. Randall agrees to impersonate Dunaway in return for a price and to put him out of reach of the U.S. marshals. Dunaway and Cane travel to the Colorado Rockies and set up camp. Their goal is to stir up hostilities between the outlaws and the townsfolk, thus justifying their escape. Henning and Muller help them by driving up
